

# Mufti Day

## Friday 15th November

We would like to help raise funds for Denny, a local boy, who has been battling Leukaemia since January 2016. After undergoing chemotherapy he went into remission, only to relapse again at the beginning of last year.

His little sister Marley was also diagnosed with the same cancer.

His family have researched and found hospitals in America, Australia and Germany that are offering CD22 treatments as there is no approved CAR T-cell treatment for Denny in the UK, but the cost of this treatment is £500,000.

Any contributions we receive will be paid directly to the umbrella charity 'Tree of Hope' (details of this can be found online).

Because the Mufti day falls on Children in Need Day, anyone who has already donated towards Denny's treatment or who simply wishes to contribute towards 'Children in Need' can also do so. Please send any contributions in to school in a labelled envelope named either Children in Need or Denny.

Children can wear plain clothes or Pudsey merchandise.

We would like to thank you in advance for your support.
