

Dear Parent, Carers and Children

Another week is almost over. I hope you are all keeping safe and well.

We have had an interesting week in school! Unfortunately on Tuesday our boiler that delivers hot water to most of the school developed a fault. This has meant we have had to close the school to years R, 1 and 6 as children in those areas were not able to wash their hands. The school will be closed for the rest of the week to those year groups. We will send an update on Friday lunch time.

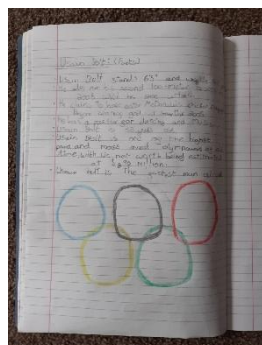

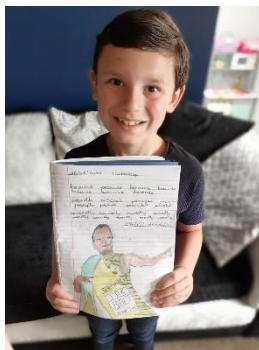

A massive thank you to all those who sent in 'Random acts of Kindness' that we could share in our assembly this week. I will be adding these to the website. Please feel free to email in any more that you have.

With increased access to technology during this time and children attempting to maintain friendships at a distance I have been made aware that some children are having issues with this on social media. We have some help sheets on our website to support with the most popular apps. Please follow the link below and take a look.

There are also some brilliant resources on this website <https://www.thinkuknow.co.uk/>

Cody has been researching Usain Bolt. Great research and an amazing drawing. Well done Cody.

We have also had some wonderful home learning shared on our teamstlens@stleonardsceprimary.org

Mrs Pickett has set a healthy eating baking challenge this week and the Dory Fish Class (Reception) have had a go in school this week. Miss Weller has been really impressed with all their hard work. Their healthy food pictures were inspired by the artist Arcimboldo.

Take care and stay safe.

Marie Burgess - Headteacher
